The opinion from the United States Department of Education (USDOE) office that rules on matters related to potential violations of Family Educational Rights and Privacy Act (FERPA) stated there was no violation of FERPA on the matter that you brought to my attention.

To answer your question about how parents can trust that I won't do that to their children, please review the email from the USDOE. I can't and won't post that information because it is illegal and inappropriate for the schools to do so. However, the schools didn't post the information you're questioning and the entity that did is allowed to. Again, please refer to the email.

Thanks Aaron,

Jeff

Well I responded asking if you were errands going to request the LPD comply with removing the protected information off line. So I'm just looking for some assistance in getting juvenile information offline. I asked you to help, as the superintendent. I'm pretty sure I responded to that email asking specific questions about this matter. I'll go find that email as well.

So I'd like an official statement from the school district, you specifically, that the school is refusing to advocate to remove juvenile information from the internet that the police got from the school. And how other parents can trust you won't do the same to their kids?

Just following up. It's been a week and I wanted to see if you had gotten a response from State yet?

Lorain Schools and Lorain Police are racially distributing against these juveniles.

You cannot post juveniles pictures and school records online to punish them. It was almost 3 years ago and they were never charged with a crime.

Noelle Williams I'm forwarding this to you since it seems 19 News gets result's.
