So the rumors of the secret meetings of springcowski and dave moore are true.. Springcowski, jerry donovan and jim sloan all in bed with dave moore.. and motor mouth mary connects the dots herself to dave..

She is also known to have a secret recorder that she records all interactions with the public and brags about recording jack bradley..

So Marty Gallagher has a big fundraiser for Moore in December 2022, then is put on the port authority board Jan 2023, then under dave moore's advice and campaign donor, tell marty to hire Bobby Ina and Rob Benjamin as advisors to buy the mall February 2023 after a port authority executive session.. both Ina under the name Metropolis and Rob Benjamin advisors are being paid \$16,000 a month and Ina per quarter are stealing money from the tax payers for doing absolutely nothing. Not to mention Hills Correctional also theiving money.

All of them donate back to Moore and Gallagher..

Rob benjamin and bobby ina are 2 close to the union thieves.. Bobby Ina is sheetmetal workers union direct and a donor to dave moore and Rob and Bobby are close to Mary.

All the spew and hatred she had for dave moore was all a smoke screen, she has been in bed with him and jd tonlinson littererly since day 1...

she is a Stinking irish pig! and now she connected the dots herself..

gosh darn if felon fogel only knew that the only political woman left in his life is a dave moore ally.

The longer the mall sits the more money Benjamin and Ina steal from the county under direction of Moore.

Motor Mouth Mary spills the beans....

Homelessness is epidemic at this time. And, unfortunately, many of the homeless (not all but a fair number) often have mental issues, as well. Sometimes it is difficult for them assimilating in residential areas where they may face hostility and residents who are concerned about what could be perceived as antisocial behavior. Creating a community that afforded them dignity, independence while still

Subject: Re: Public Records Request

To be clear it was specifically stated to the Board that it was the "Lorain Police Department" not one particular person.

So as the legal advisor and law director are you saying that someone within the department filed this complaint and claimed to represent the Police Department as an agency?

We both know it was the chief who has harassed me since the department decided to break the law. Also now my employment has been threatened.

So you're stating that filing a false complaint saying that you represent the Lorain Police isn't a matter of public record?

I'm going to the court of claims next but I needed to give you an opportunity to respond. I've tried my best to handle this out of court. A simple apology and a fix of the problem.

To be clear I witnessed the Lorain Police post illegal documents online and tried to report it as a whistleblower. As such I consider myself protected under state and federal law.

And I've given the city multiple opportunities to deal with this the right way. Instead my employment has been attacked and my license threatened when the police broke the law.

I'm not the one who posted juvenile court records online in violation of Ohio Revised Code and then tried to cover it up.

In the end I think it's at minimum a matter of public record to inquire who filed the complaint representing a public agency?

RE: Response to Public Records Denial and Misapplication of R.C. 149.43(A)(1)(v)

Dear Attorney LaVeck:

Thank you for your July 24, 2023 response to my public records request regarding a complaint reportedly submitted to the Ohio Counselor, Social Worker, and Marriage & Family Therapist Board by a member of the Lorain Police Department. I respectfully submit this written reply to clarify the applicable legal standards and to dispute your cited basis for denial.

You state that "even if there was a complaint made or information provided by a City of Lorain employee to 'the Board,' any complaint or information provided would be confidential and therefore not a public record," citing R.C. 149.43(A)(1)(v) and R.C. 4757.38(B)(1). However, your interpretation misapplies these statutes by conflating the confidentiality obligations of the receiving agency (i.e., the Social Work Board) with those of the originating public office (i.e., the City of Lorain).

1. The Email Complaint, If Sent from a City-Issued Account, Is a Public Record Under Ohio Law

Under Ohio's Public Records Act, a "public record" includes any document, regardless of format, **"that is created or received by or coming under the jurisdiction of any public office of the state or its political subdivisions, which serves to document the organization, functions, policies, decisions, procedures, operations, or other activities of the office."** R.C. 149.011(G); see also R.C. 149.43(A)(1).

It is well-settled that **emails sent from city-owned computers or email accounts, relating to public business, are public records.** See *State ex rel. Wilson-Simmons v. Lake Cty. Sheriff's Dep't*, 82 Ohio St.3d 37 (1998); see also *State ex rel. Toledo Blade Co. v. Seneca Cty. Bd. of Comm'rs*, 120 Ohio St.3d 372, 2008-Ohio-6253.

A complaint submitted by a police officer or any city employee using city email or during the course of official duties **documents the activities of the city office.** The city's copy—whether in a sent folder, server archive, or data backup—is subject to R.C. 149.43, regardless of where else it may have been sent. As confirmed in *State ex rel. Cincinnati Enquirer v. Krings*, 2000 Ohio App. LEXIS 5854, the public's right of access does not depend on where a record ends up, but where it originated and whether it documents public business.

2. The Confidentiality of the Board's Investigative Records Does Not Extend to the City's Copy

You cite R.C. 4757.38(B)(1), which indeed prohibits the Social Work Board from disclosing complaints or investigative records. However, this statute applies only to the Board. It does not prohibit the originating agency from disclosing the same document. There is no language in R.C. 4757.38 that extends this confidentiality mandate to third-party public offices like the City of Lorain. As the Ohio Attorney General's *Sunshine Laws Manual* explains, an exception to the Public Records Act must be "explicit," and cannot be implied or inferred from another agency's rules or duties.

Moreover, the Supreme Court of Ohio has been clear that a public record does not become confidential simply because it was later transferred to another agency with stricter disclosure laws. See *State ex rel. Findlay Publishing Co. v. Hancock Cty. Bd. of Comm'rs*, 80 Ohio St.3d 134 (1997).

3. R.C. 149.43(A)(1)(v) Does Not Apply Absent a Specific Prohibition on Release by Law

R.C. 149.43(A)(1)(v) excludes from disclosure only records "the release of which is prohibited by state or federal law." To invoke this exemption, a public office must show that a specific statute *prohibits the public office in question*—in this case, the City of Lorain—from releasing the record. There is no such statute here. Again, R.C. 4757.38(B)(1) governs the Board—not your office, not the police department.

Unless you can cite an actual statute that forbids the City of Lorain from releasing an email authored and sent by one of its employees from city servers, the record remains a public record and must be disclosed.

4. Public Accountability Demands Disclosure When a Complaint Is Filed in the Name of a Public Agency

Finally, I reiterate that the complaint in question was allegedly submitted not merely by a private citizen, but by an individual claiming to act on behalf of "the Lorain Police Department." If a complaint was filed purporting to represent a public agency, it absolutely qualifies as a matter of public interest, accountability, and transparency. It raises significant ethical and administrative questions if a city employee falsely represented the agency to an outside licensing body, and the public has a right to inspect such correspondence.

5. Next Steps

I remain committed to resolving this matter cooperatively. However, if your office continues to deny this request without proper statutory justification, I will proceed with a formal complaint to the Ohio Court of Claims under R.C. 2743.75. Additionally, I will consider filing a whistleblower retaliation claim based on the retaliatory nature of the original complaint and the City's subsequent actions affecting my employment and licensure.

Please respond within a reasonable timeframe and reconsider the City's position in light of the above analysis. I request that the City of Lorain conduct a search of all city email servers, including Chief McCann's, for any communications sent to the Social Work Board between June 2023 and July 2023 referencing me or purporting to represent the Lorain Police Department.

Respectfully,

Aaron Christopher Knapp, LSW, CDCA(p), BSSW

So I thought I responded to this but it didn't send.
Why is the city clerk asking the State to answer this request?
The council rule says "certificate" rule 41.

You're saying that no certificates are issued but yet I have one and I was sent one by a council member. Mine is from 6 months ago. Yet you said you haven't issued them in "several years"?

I've attached them for you review. Please explain the discrepancy in this statement vs the attached certificates. I currently have an open case in the court of claims because the clerk cannot seem to do her job as required by law.

Subject: Re: Public Records Request

To be clear it was specifically stated to the Board that it was the "Lorain Police Department" not one particular person.

So as the legal advisor and law director are you saying that someone within the department filed this complaint and claimed to represent the Police Department as an agency?

We both know it was the chief who has harassed me since the department decided to break the law. Also now my employment has been threatened.

So you're stating that filing a false complaint saying that you represent the Lorain Police isn't a matter of public record?

I'm going to the court of claims next but I needed to give you an opportunity to respond. I've tried my best to handle this out of court. A simple apology and a fix of the problem.

To be clear I witnessed the Lorain Police post illegal documents online and tried to report it as a whistleblower. As such I consider myself protected under state and federal law.

And I've given the city multiple opportunities to deal with this the right way. Instead my employment has been attacked and my license threatened when the police broke the law.

I'm not the one who posted juvenile court records online in violation of Ohio Revised Code and then tried to cover it up.

In the end I think it's at minimum a matter of public record to inquire who filed the complaint representing a public agency?

RE: Response to Public Records Denial and Misapplication of R.C. 149.43(A)(1)(v)

Dear Attorney LaVeck:

Thank you for your July 24, 2023 response to my public records request regarding a complaint reportedly submitted to the Ohio Counselor, Social Worker, and Marriage & Family Therapist Board by a member of the Lorain Police Department. I respectfully submit this written reply to clarify the applicable legal standards and to dispute your cited basis for denial.

You state that *“even if there was a complaint made or information provided by a City of Lorain employee to ‘the Board,’ any complaint or information provided would be confidential and therefore not a public record,”* citing R.C. 149.43(A)(1)(v) and R.C. 4757.38(B)(1). However, your interpretation misapplies these statutes by conflating the confidentiality obligations of the *receiving agency* (i.e., the Social Work Board) with those of the *originating public office* (i.e., the City of Lorain).

1. The Email Complaint, If Sent from a City-Issued Account, Is a Public Record Under Ohio Law

Under Ohio's Public Records Act, a “public record” includes any document, regardless of format, *“that is created or received by or coming under the jurisdiction of any public office of the state or its political subdivisions, which serves to document the organization, functions, policies, decisions, procedures, operations, or other activities of the office.”* R.C. 149.011(G); see also R.C. 149.43(A)(1).

It is well-settled that **emails sent from city-owned computers or email accounts, relating to public business, are public records.** See *State ex rel. Wilson-Simmons v. Lake Cty. Sheriff's Dep't*, 82 Ohio St.3d 37 (1998); see also *State ex rel. Toledo Blade Co. v. Seneca Cty. Bd. of Comm'rs*, 120 Ohio St.3d 372, 2008-Ohio-6253.

A complaint submitted by a police officer or any city employee using city email or during the course of official duties **documents the activities of the city office.** The city's copy—whether in a sent folder, server archive, or data backup—is subject to R.C. 149.43, regardless of where else it may have been sent. As confirmed in *State ex rel. Cincinnati Enquirer v. Krings*, 2000 Ohio App. LEXIS 5854, the public's right of access does not depend on where a record ends up, but where it originated and whether it documents public business.

2. The Confidentiality of the Board's Investigative Records Does Not Extend to the City's Copy

You cite R.C. 4757.38(B)(1), which indeed prohibits the Social Work Board from disclosing complaints or investigative records. However, this statute applies only to the Board. It does not prohibit the originating agency from disclosing the same document. There is no language in R.C. 4757.38 that extends this confidentiality mandate to third-party public offices like the City of Lorain. As the Ohio Attorney General's *Sunshine Laws Manual* explains, an exception to the Public Records Act must be "explicit," and cannot be implied or inferred from another agency's rules or duties.

Moreover, the Supreme Court of Ohio has been clear that a public record does not become confidential simply because it was later transferred to another agency with stricter disclosure laws. See *State ex rel. Findlay Publishing Co. v. Hancock Cty. Bd. of Comm'rs*, 80 Ohio St.3d 134 (1997).

3. R.C. 149.43(A)(1)(v) Does Not Apply Absent a Specific Prohibition on Release by Law

R.C. 149.43(A)(1)(v) excludes from disclosure only records "the release of which is prohibited by state or federal law." To invoke this exemption, a public office must show that a specific statute *prohibits the public office in question*—in this case, the City of Lorain—from releasing the record. There is no such statute here. Again, R.C. 4757.38(B)(1) governs the Board—not your office, not the police department.

Unless you can cite an actual statute that forbids the City of Lorain from releasing an email authored and sent by one of its employees from city servers, the record remains a public record and must be disclosed.

4. Public Accountability Demands Disclosure When a Complaint Is Filed in the Name of a Public Agency

Finally, I reiterate that the complaint in question was allegedly submitted not merely by a private citizen, but by an individual claiming to act on behalf of "the Lorain Police Department." If a complaint was filed purporting to represent a public agency, it absolutely qualifies as a matter of public interest, accountability, and transparency. It raises significant ethical and administrative questions if a city employee falsely represented the agency to an outside licensing body, and the public has a right to inspect such correspondence.

5. Next Steps

I remain committed to resolving this matter cooperatively. However, if your office continues to deny this request without proper statutory justification, I will proceed with a formal complaint to the Ohio Court of Claims under R.C. 2743.75. Additionally, I will consider filing a whistleblower retaliation claim based on the retaliatory nature of the original complaint and the City's subsequent actions affecting my employment and licensure.

Please respond within a reasonable timeframe and reconsider the City's position in light of the above analysis. I request that the City of Lorain conduct a search of all city email servers, including Chief McCann's, for any communications sent to the Social Work Board between June 2023 and July 2023 referencing me or purporting to represent the Lorain Police Department.

Respectfully,

Aaron Christopher Knapp, LSW, CDCA(p), BSSW

DRAFT FLORIDA DEMAND LETTER TEMPLATE

Date:

From: *Robert Greene, Resident of American County, State*

Address: *Robert Greene, 757 Melbrooke Way, Everytown, FL, 54123*

DEMAND: *Immediately Stop the Access to and Administration of COVID-19 Injections Across All Na*

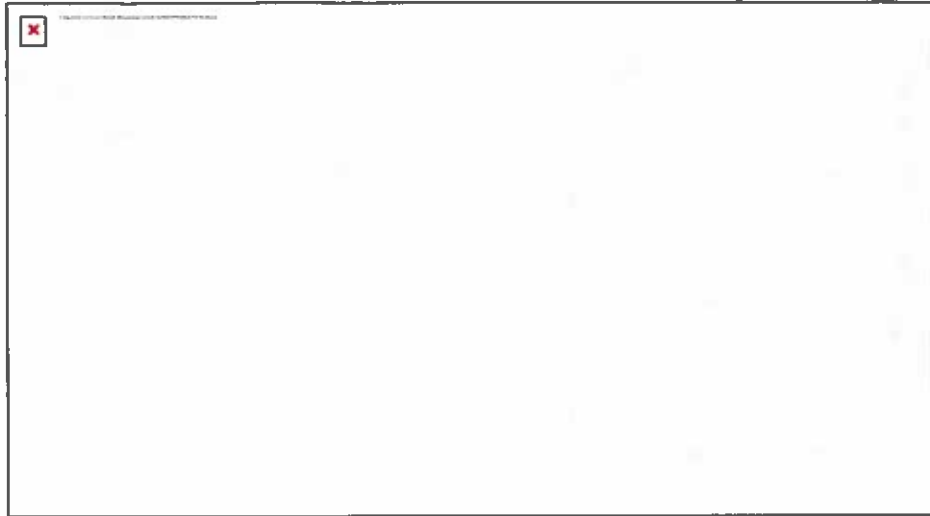

Attention: *John Doe, Jane Smith, Jennifer Davis, Patricia Jones, Tyler Kennedy*

CC: *(list friends, community members, church members, family, and attorneys who have given perm them.)*

This notice is sent to the attention of "*John Doe, Jane Smith, Jennifer Davis, Patricia Jones, and Tyler* individually and collectively as the 'COUNTY BOARD.'

It is now well-known that the COVID-19 injections **do not** prevent infection^{1,2}, **do not** protect against diseases and even death^{5,6} and were administered through deceptive criminal experimentation on ci consent.

The COVID-19 mRNA injections meet the exact definition of a bioweapon **per 18 USC 175, which is a device for use other than prophylactic** (preventative), **protective, bona fide** research, or other pe

A toxin, device or biological agent that has NO clinical benefit and is proven to cause injury, harm, disability, or death. **weapon.**

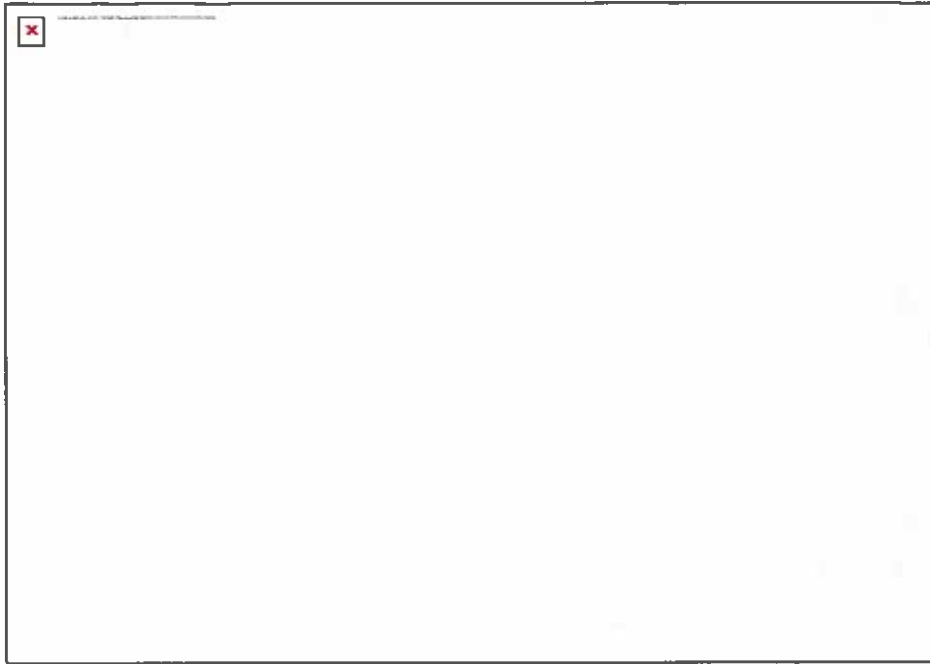

COVID-19 injections **are known toxic agents causing unwarranted disease, disabilities and death.** COVID-19 injections as safe and effective and/or enabling access to the COVID-19 injections, mental health, and criminal liability.

The COUNTY BOARD is in receipt of this notice informing each of you of **the following eleven (11) false and harmful and sometimes lethal COVID-19 injections** as safe and effective vaccines.

Point 1: Pfizer's mRNA Injections Do NOT Prevent Infection

Florida residents were promised that the COVID-19 mRNA injections would *reduce the risk* for COVID-19. However, the FDA stating the opposite of what was promised. Per **Pfizer's September 2021 post-hoc analysis**, **increase the risk** for COVID-19.¹

Page 23 of the 2021 **FDA Briefing Document** states; "**An additional analysis appears to indicate that the risk of COVID-19 increased in each group of study participants with increasing time post-Dose 2.**"¹

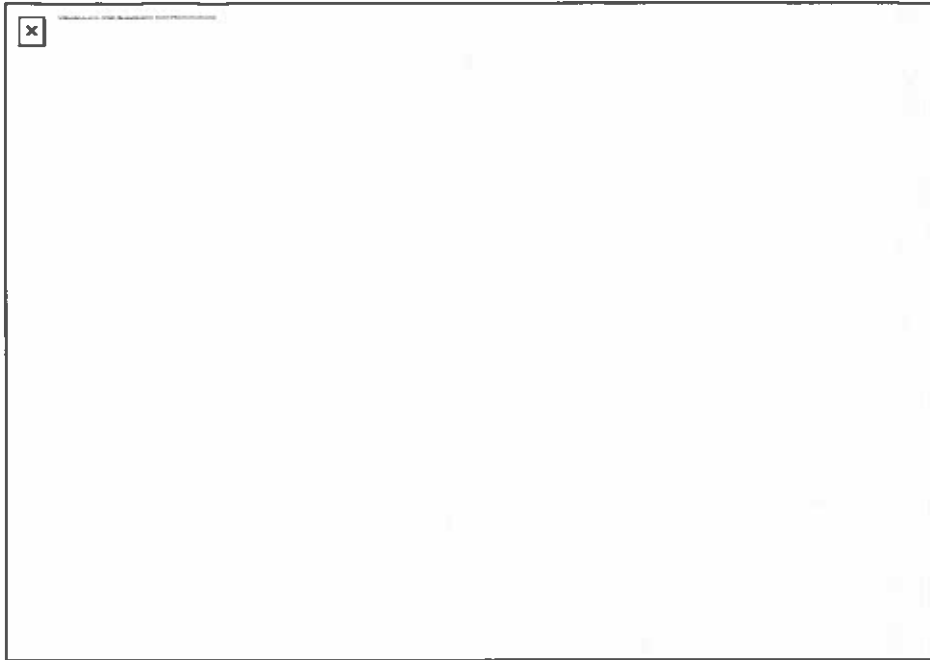

Florida residents were told that COVID-19 vaccines would reduce the risk for infection and disease, infection and disease. These are clearly *not* vaccines.

[Share](#)

Point 2: Bivalent and Monovalent Injections Increase the Risk for COVID-19

A recent study of 51,011 Cleveland Clinic employees *confirmed* that the risk for COVID-19 infection, being unvaccinated.² **AND** that with each *additional injection* (bivalent booster), the risk for COVID-19, unvaccinated.²

Point 3: Pfizer’s mRNA injections fail to meet the definition of a vaccine per the F

The promise that Pfizer’s mRNA vaccines would prevent infection and COVID-19 disease is not up fo insert for Pfizer’s mRNA vaccine Pfizer clearly states that, “*COMIRNATY is a vaccine to prevent COVI virus.*”

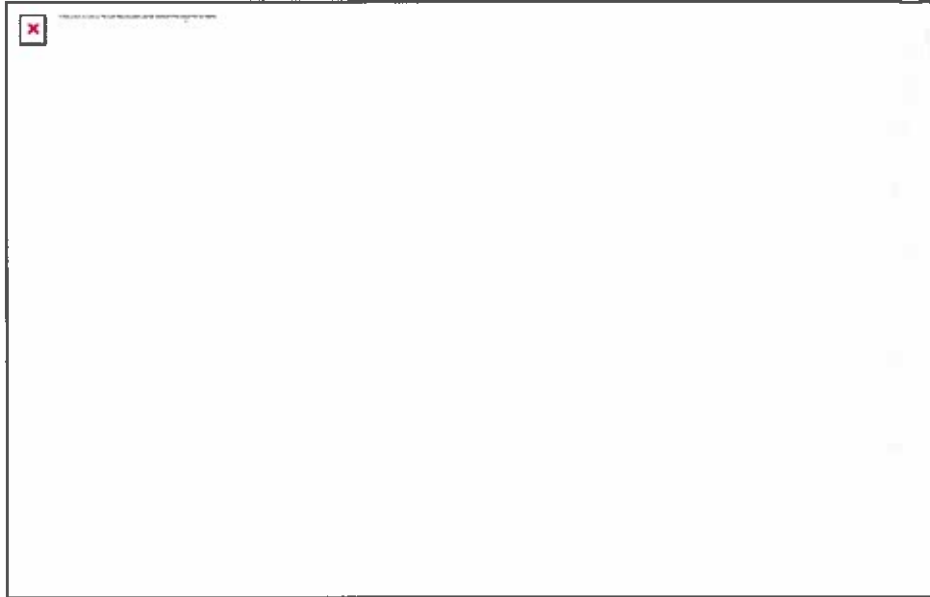

COMIRNATY is a vaccine indicated for active immunization **to prevent coronavirus disease 2019 (** respiratory syndrome **coronavirus 2 (SARS-CoV-2)** in individuals 12 years of age and older.¹⁵

Again, these are clearly *not* vaccines per Pfizer’s and the FDA’s own definition.¹⁵

Point 4: Pfizer’s mRNA Injections *Increase* the Risk for Severe Disease and Hospitalization

Per page 41 of Pfizer’s **Phase 3 data**³ submission, Pfizer reported that *within 7 days of subjects receiving the vaccine, 1.5% of subjects in the vaccine group had suspect or unconfirmed COVID-19 which could have masked*

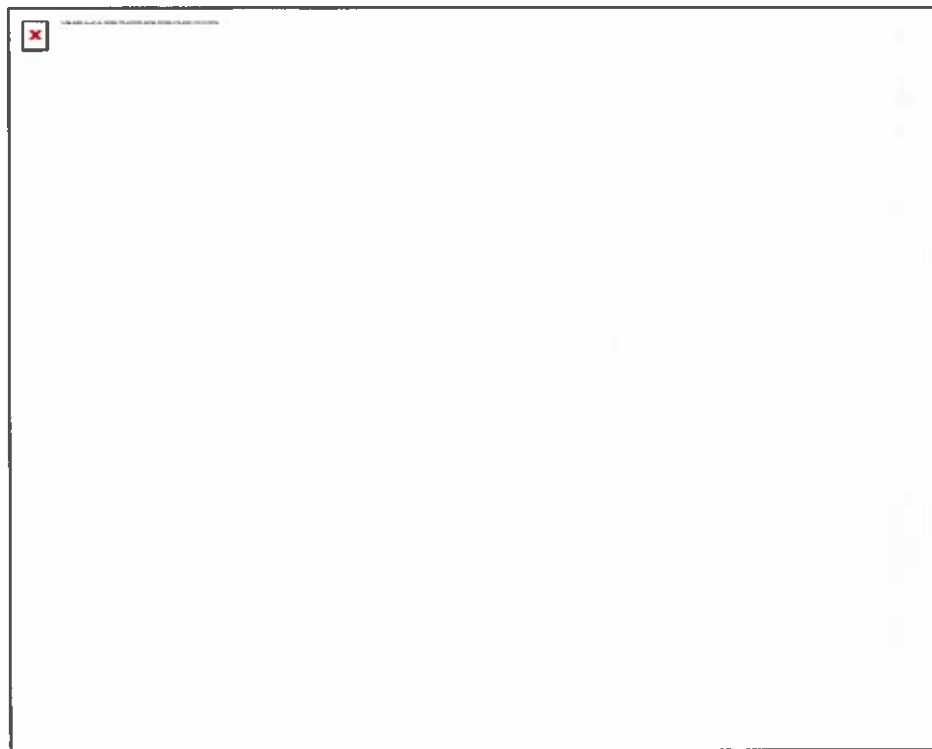

Per pages 56-57 of Pfizer’s **initial new drug application (IND)**⁴, severe COVID-19 and/or clinically significant respiratory failure; kidney, liver and neurological dysfunction; admission to the ICU, and death.

Pfizer claims that they were 'unsure' if their mRNA injection caused harmful clinical outcomes in 40%

Point 5: COVID-19 Injections Cause Stroke, Heart Attacks, Autoimmune Diseases, Clotting, Myocarditis, Convulsions, Seizures, Multi-system Inflammatory Syndrome, Death

The FDA met with industry manufacturers (including Pfizer) to discuss more than two dozen harmful COVID-19 vaccines on **October 22, 2020**.⁵

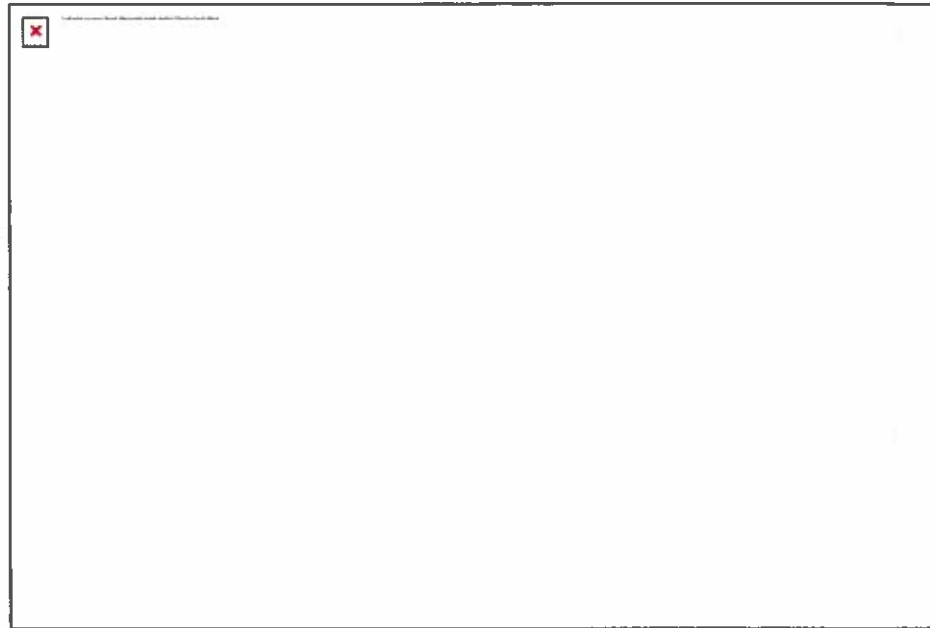

The increased risk for heart attacks, stroke, autoimmune diseases, blood clotting, myocarditis, convulsions, seizures, multi-system inflammatory syndrome, vaccine-induced injuries, disabilities, diseases and death, was **known by Pfizer, Moderna, Johnson & Johnson** at the time of their **authorization and approval (see slide 16)**.⁵

Share

Point 6: The FDA Authorization and FDA Approval of mRNA Injections are Acts of Unethical Experimentation on Civilians, NOT *bona fide* Research

All of the phase 2/3 clinical trials, FDA authorizations, and FDA approvals of COVID-19 mRNA injections violate laws 21 U.S.C 312.42b1i/b2i and 21 U.S.C 355.^{6,7}

Per 21 U.S.C 312.42b1i/b2i, during a Phase 1 trial of 20-80 healthy people, if a 'vaccine' (or biological product) poses a significant risk for illness or injury, *human experiments must be terminated*.

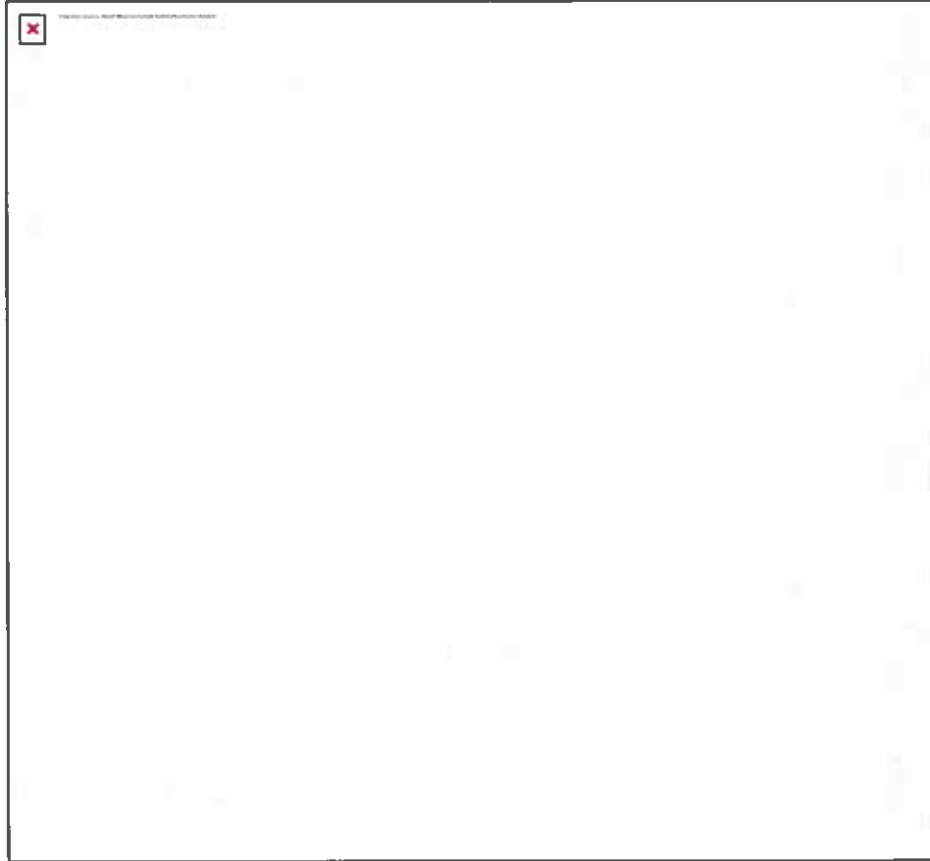

These laws are in place to protect American civilians from being unknowingly exposed to harmful biological products that could cause illness, disability, or even death.^{6,7}

Pfizer and the FDA ignored these laws and engaged in criminal experimentation on adults and children on American civilians. Even under emergency use authorization, the FDA may not authorize a biological product for use on American civilians if the benefits do not outweigh the risks.

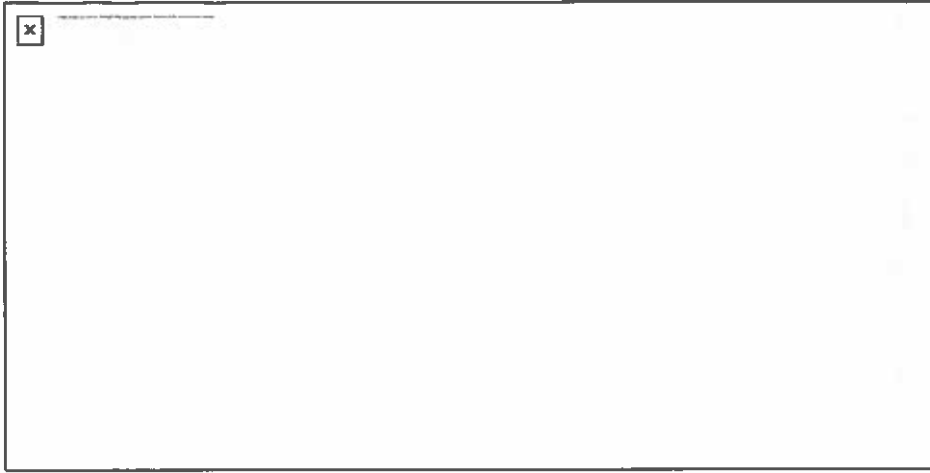

Point 7: Pfizer and the FDA Knowingly Placed Adults and Children at *Unnecessary Harmful and Toxic Agent*

Based on the October 22, 2020, meeting alone, when industry and the FDA discussed the more than 100,000 deaths and 100,000+ threatening outcomes from the COVID-19 injections, the *FDA should have terminated all of the COVID-19 mRNA injections* and access to these harmful mRNA injections by civilian adults and children.⁵⁻⁷

Even under Emergency Use Authorization (EUA), per the **FDA's guidance**,^{8,15} the FDA must determine if the benefits of a product (biological agent) outweighs the known risks before authorizing a product for use in the United States.

Per **21 U.S.C 355**, the FDA must make a determination that the benefits of a product outweigh the risks before authorizing or approving a product.⁷

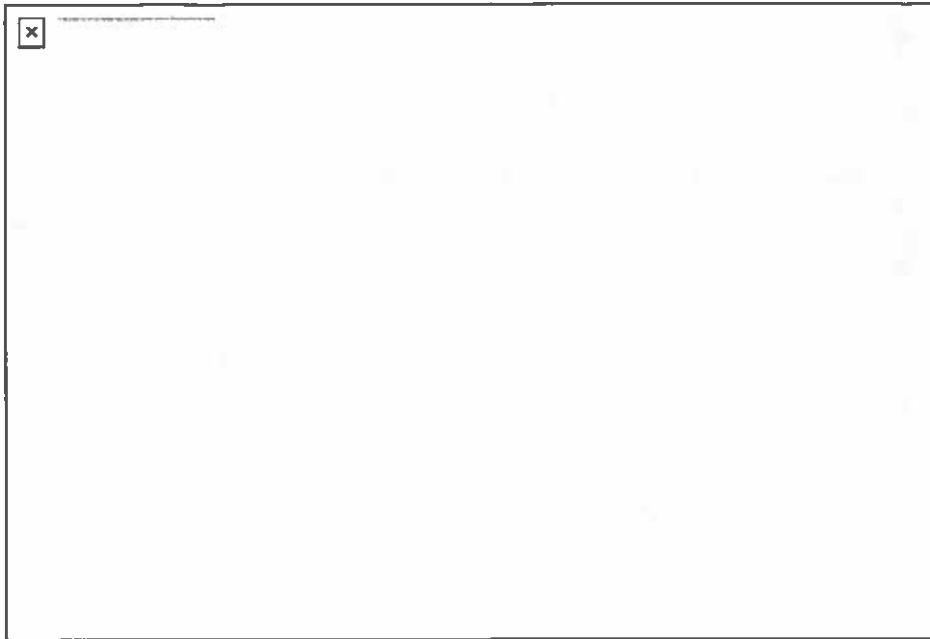

The data the FDA had in their possession clearly demonstrated that the benefits of COVID-19 ‘vaccines’ were minimal. HHS declared a public health emergency in order to *enable the experimental use of known harmful and unproven vaccines*. There was no valid legal reason for the FDA, CDC, Pfizer or Moderna to promote *previously established harmful and unproven* ‘safe and effective vaccines’.

Point 8: Pfizer and the FDA Knowingly Placed Children at *Unnecessary Risk* for Injuring Children with a Harmful and Toxic Agent

The FDA and Pfizer cannot claim ignorance when it comes to placing American civilians at unnecessary risk when it comes to children. The injection of children with mRNA technology was never merited. The risk was insignificant per the FDA’s own documents.⁹

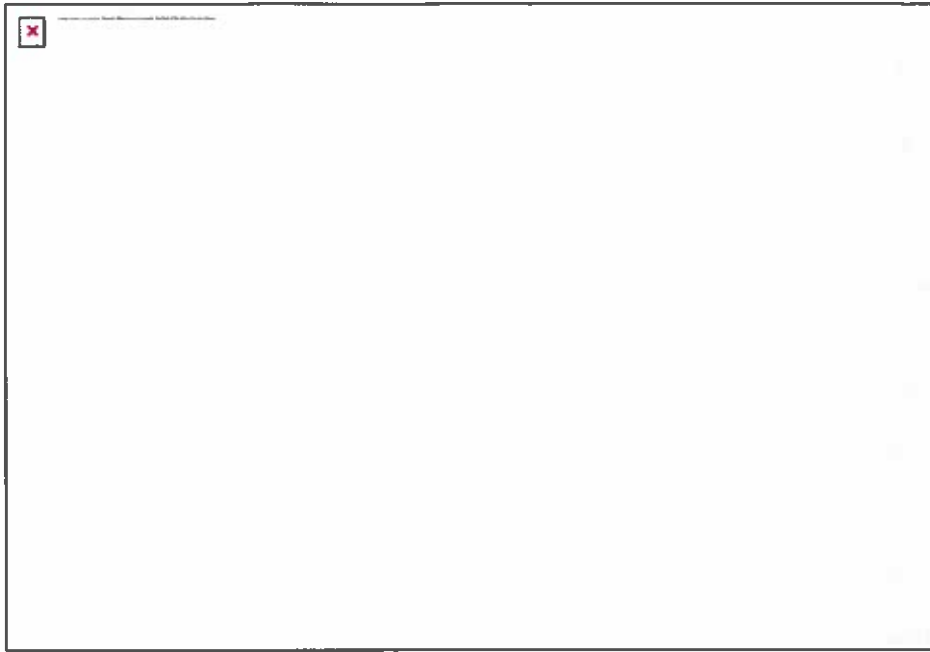

On June 10, 2021, the FDA met to discuss the clinical endpoints for children’s COVID-19 vaccine studies. The committee stated that **conducting a pediatric trial where *the primary endpoint is reduction in risk of hospitalization in children versus unvaccinated children would be impossible (infeasible) to conduct, because clinical endpoints for children are not well defined.***

Pfizer **knowingly violated safety laws and placed children at unnecessary risk for injury, harm, and death** in its Phase 3 clinical trial. Pfizer's Phase 3 data submission.³ Pfizer's report states that there was data from 100 children aged 12 to 17 years old who experienced adverse effects from the mRNA injections (i.e. myocarditis, seizures, blood clots, death, etc.). However, **the data for these 100 children NOT be disclosed because the benefit-risk ratio was unfavorable**.

Verbatim from pages 15-16 of Pfizer's Phase-3 FDA document;

"Reactogenicity data from a total of 100 adolescents 12 through 15 years of age were provided in the Phase 3 clinical trial. Pfizer did not request inclusion of this age group in the EUA because the data available... were insufficient to support the use of the vaccine in this age group at this time. Therefore, the reactogenicity data for participants 12 through 15 years of age are NOT provided in the Phase 3 clinical trial report."

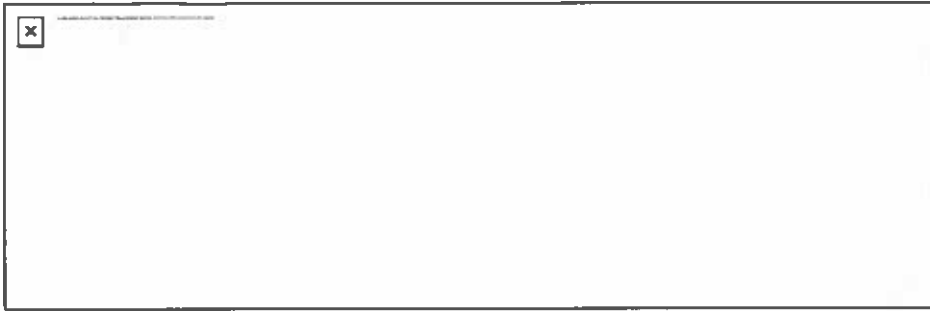

The November 20, 2020, benefit-risk statement regarding the COVID-19 mRNA vaccination in unfavorable benefit-risk ratio and is a blatant violation of **21 USC 355.^{3,7}**

This is evidence that both Pfizer and the FDA *knowingly* broke the law. The FDA's authorization are grossly unethical and criminal, as were the manufacturers' promotions of these toxic injections as 'safe' for adults.

Point 9: More than 40% of Florida Residents Who Were Early Recipients of COVID-19 mRNA Vaccination Experienced Harm or Injury and Unable to Work or Perform Other Daily Activities

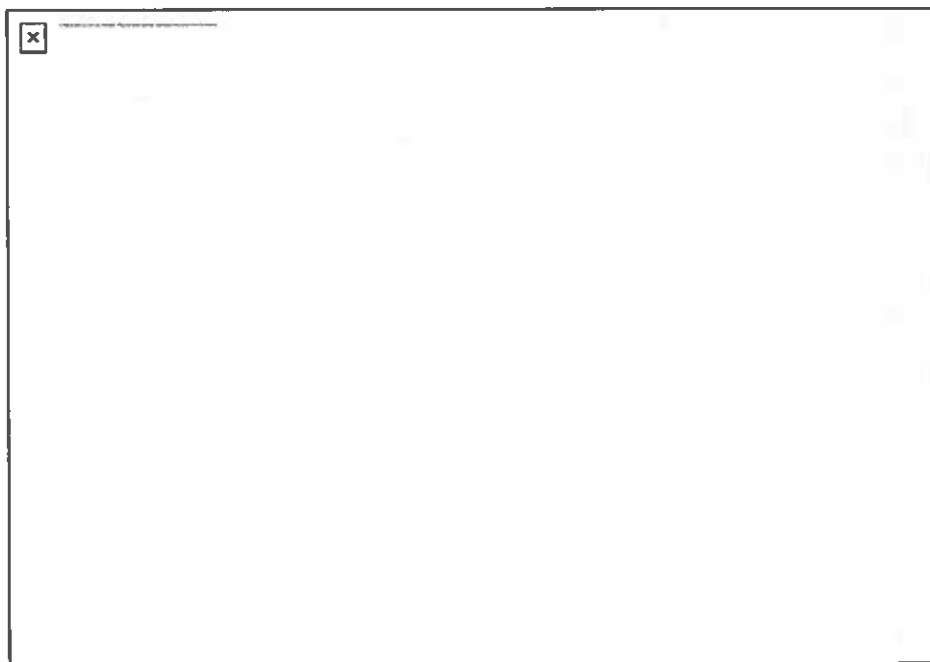

The **V-Safe (VaxxSafe) database** is data derived from the CDC's mobile app platform of US residents who received COVID-19 mRNA injections. V-Safe was launched at the very beginning of the COVID-19 injection rollout. The data in the database shows that more than 40% of Florida residents who were early recipients of COVID-19 mRNA vaccination experienced harm or injury and were unable to work or perform other daily activities.

According to the **V-Safe database for the state of Florida** 403,396 Florida residents downloaded the COVID-19 mRNA vaccination app.

Of the 403,396 injected Florida residents who used V-Safe, **41.4%** (167,005) experienced a severe adverse event and 2.1% required a hospital or emergency room visit.¹⁰

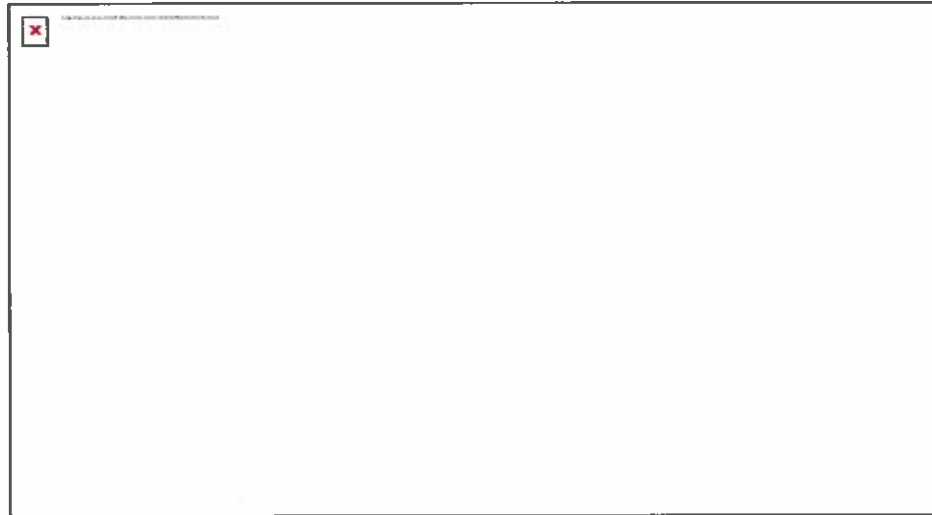

Per FDA guidance and Pfizer’s Initial New Drug Application (IND), severe or life threatening adverse event is defined as **“prevents daily routine activity.”**⁴

More than 4 out of 10 Floridians experienced a severe or life-threatening adverse event after receiving V-Safe data.

Point 10: COVID-19 Injections Do NOT Meet the Definition of a Vaccine

The COVID-19 injections meet the exact definition of a bioweapon **per 18 USC 175, which is a biological use other than prophylactic** (preventative), **protective, bona fide research, or other peaceful purpose** when used and that has no clinical benefit is a weapon).

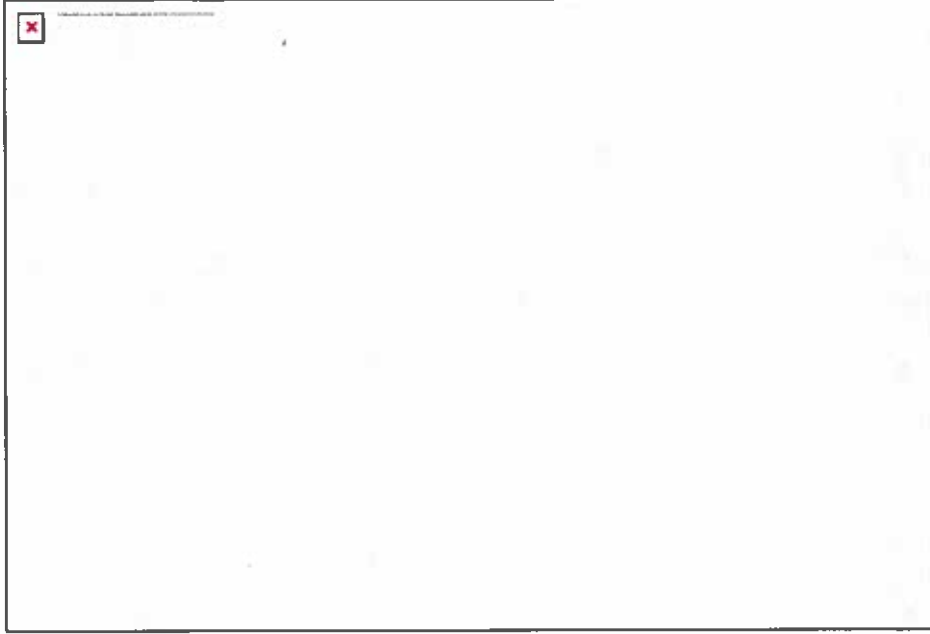

The COVID-19 injections **do not** prevent infection or transmission; they **do not** protect against disease; they violate FD&C Act safety and efficacy laws; recipients of EUA injections **did not** receive informed consent; and they **are proven to cause serious illness, injury and even death, in previously healthy adults and children.**

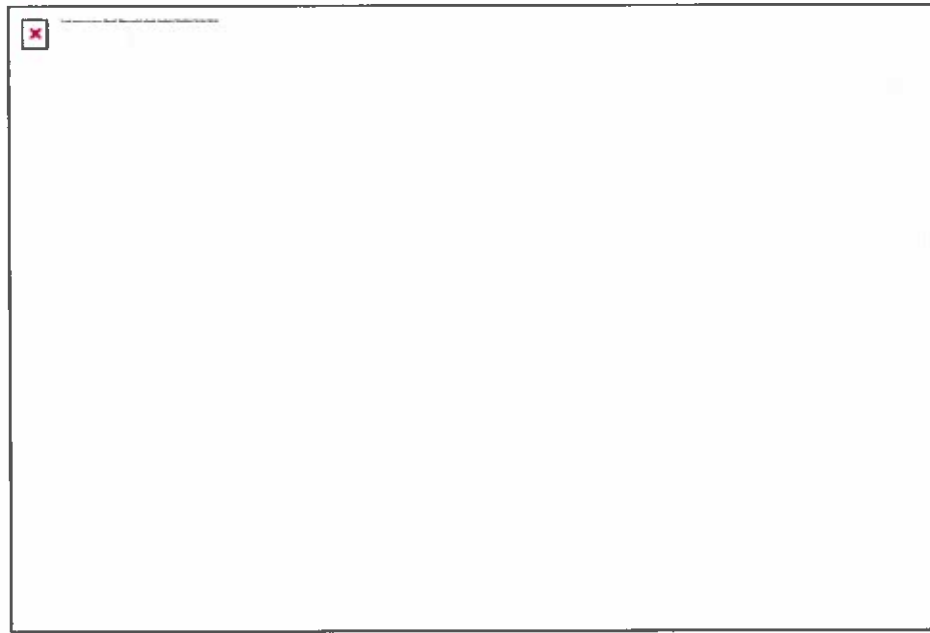

The COVID-19 injections are bioweapons that have been criminally promoted, distributed, and administered as *'safe and effective vaccines.'*

Point 11: mRNA Vaccines Contain Nanotechnology that is Patented For Use as a Biological Weapon

The lipid nanoparticles in the COVID-19 mRNA injections are nanotechnologies.¹⁴

In January of 2017, MIT, Harvard, the Brigham and Woman's Hospital, and the Children's Medical Ce
nanoparticle Vaccine Technology for use as a bioweapon.¹²

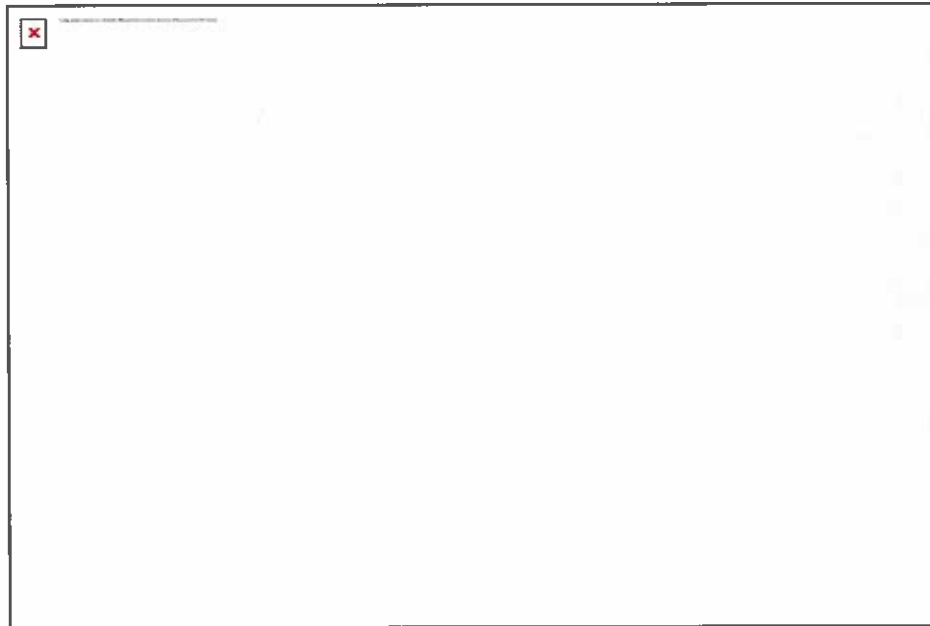

The lipid nanoparticle vaccine nanotechnology is patented for use as a bioweapon because the COVID-19 mRNA vaccines) are bioweapons.

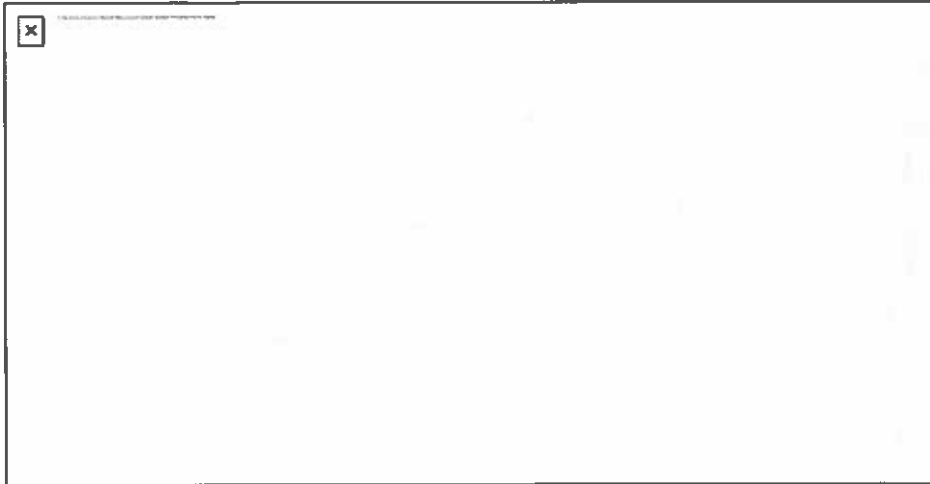

It is important to note that there are no patents for ivermectin or hydroxychloroquine for use as a bio nanotechnology 'vaccines' ivermectin or hydroxychloroquine can not be and are not being used as b

Point 12: Biological Weapons are Weapons of Mass Destruction and Allowing The Felony in the State of Florida¹³

Under Florida Law Chapter 790 Weapons and Firearms, **Section 166, Weapon of Mass Destruction that may be engineered through biotechnology), toxin, vector, or delivery system capable of causing malfunction in a human.**"

Florida 790.166 states, "A person who conspires to use or who makes readily accessible to other a felony of the first degree, punishable by imprisonment for a term of years not exceeding life."

By not taking immediate action to stop civilian access to the COVID-19 bioweapon injections, the CC
Felony for being *knowledgeable of and willfully complicit in the enablement of children and adults to
are by legal definition, bioweapons and weapons of mass destruction in the state of Florida.*

The COUNTY BOARD now have a new opportunity to educate victims within your communities regard
them have been injected with a bioweapon that has been shown to cause disease, disabilities and d
19 injections to adults and children should cease and desist immediately.

If the COUNTY BOARD continues to advocate for the use of COVID-19 injections or remain silent on t
may be charged and convicted of a first degree felony by enabling innocent adults and children *to ha
known to cause injury, disease, disabilities, and death.*

There is no law in that United States that protects a person or organization from being criminally cha
biological weapons to civilian populations under the guise of 'safe and effective vaccines.'

For these reasons, I demand that the COUNTY BOARD immediately stop the promotion of, access to
across **NameofCounty** vaccination facilities. I recommend that the COUNTY BOARD convene a pan
regarding the known harmful clinical outcomes of the COVID-19 injections. This information can be
FDA clinical trials, peer-reviewed publications of real-world evidence, V-Safe database, and testimo
harmed.

Recommend Action Items

It is important for **NameofCounty** residents to understand that the FDA trials were fraudulent and cr the laws that regulate the biologics industry or vaccine research. Therefore, the safety and efficacy c only false and intentionally misleading, but were an act of criminal experimentation on civilians with

I recommended meeting with *NameofCounty doctors* who have successfully treated patients who w injections and can assist in providing educational materials to help restore the health of those injure

I recommend educating residents on how to take criminal action **against the manufacturers** under : of bioweapons because those who have been injured have the right to pursue criminal charges.

When confronted with the evidence that the COVID-19 injections are bioweapons, I believe good me with the false and harmful claim that these injections are safe and effective vaccines in order to avoi community.

I believe *all Americans* who believe in their unalienable God-given rights and genuinely care about th conflict in sharing the truth with our communities, rather than standby and silently witness the ongoi inflicted on our family, friends, colleagues, and community members under the guise of ‘*wellness ar*

I believe the members of the COUNTY BOARD are going to do everything in their power to protect the residents and I would be honored to be of service in your efforts to do so.

Sincerely,

Jane Doe

Title, Resident of Town, Zip, State

Matthew 18:15-17

Gargas <rjgargas@gmail.com>; Garon Petty <onelung2014@gmail.com>; Lorain daily <erik@loraindaily.com>; Mike Mason <Mike.Mason@woio.com>; Clevescene <news@clevescene.com>; Noelle Williams <Noelle.Williams@woio.com>; Fox <tips@fox8.com>; Bradley, Jack <Jack_Bradley@cityoflorain.org>; Carrion, Rey <Rey_Carrion@cityoflorain.org>; David Yost AG <AGOCARES@ohioago.gov>; Brian Ames <bmames00@gmail.com>
Subject: Lorain City Council Subject: Public Records Request – Council Communications Related to Aaron Christopher Knapp

External sender <a4xbeaverman@yahoo.com>
Make sure you trust this sender before taking any actions.

To Whom It May Concern,

Pursuant to the Ohio Public Records Act, I am formally requesting access to the following public records from the Lorain City Council and its staff:

1. Date Range:

- From January 1, 2025 to the present (August 2025)

2. Records Requested:

- All emails, texts, internal communications, attachments, or other documents that:
 - Mention or reference “Aaron Christopher Knapp”, or
 - Discuss or relate to any legal matter, charge, or city action involving me, including any communications with or about the Law Director’s Office, the Lorain Municipal Court, or the Prosecutor’s Office
-

3. Custodians of Records (Requested From):

All current members of Lorain City Council, including but not limited to:

- Mary Springkowski, Joanne Moon, Danielle Nutt, Joel Arredondo, Mary Spellacy, Tony Dimacchai, Victoria Kempton, Joshua Thornsberry, Beth Henley, Pam Carter, former council Antonio Baez and current Council Angel Arroyo,
- As well as:
- Council Clerk or Staff
- Any council-appointed representatives who send or receive communications on behalf of Council members

And Safety Service Director Rey Carrion.

4. Format:

I request the records in electronic format (PDF, .eml, or text format preferred). If any responsive communications occurred over personal email, text, or social media accounts used for public business, those are subject to disclosure under the Ohio Public Records Act.

5. Regarding Redactions and Privilege:

I am requesting these records unredacted, unless a valid exemption under Ohio law clearly applies. As you are aware:

- Communications between public officials and city staff are not inherently privileged
- The burden of proof for any claimed exemption lies solely with the public body
- Exemptions must be cited with specific legal justification for any redactions or withholdings

6. Costs and Delivery:

Please notify me in advance of any costs associated with fulfilling this request.

7. Additional Statement:

If the City of Lorain is willing to spend taxpayer money to involve a Special Master over trivial disputes like Facebook posts, then it should have no issue complying with this legitimate public records request concerning actual government communications and conduct.

It is deeply irresponsible to claim transparency while simultaneously burning public funds to avoid disclosure. You've already asserted that no official action was taken by Council, yet you continue to waste our money defending something you say didn't happen. The records should be released. Stop wasting our tax dollars.

This kind of behavior erodes public trust and reflects poorly on Council's stated commitment to accountability.

8. Legal Notice:

This letter serves as my official public records demand. If this request is ignored or improperly denied, I will submit it to the court as part of a formal complaint or legal challenge under the Ohio Public Records Act.

Thank you for your prompt attention to this matter.

Sincerely,

Aaron Christopher Knapp

Are there lessons and precautions too in this article for local government in Ohio and Lorain County/ Lorain to employ?

Navigating Fraud in Insolvent Companies: Lessons for the UK

United Kingdom, USA June 9 2025

In an ever-evolving UK economy, insolvency is a challenging, yet sometimes inevitable, aspect of business operations. When insolvency is caused by fraud, the repercussions can be severe, impacting employees, creditors, and investors.

In the UK, several high-profile insolvencies have exposed fraudulent activities, prompting a re-evaluation of corporate governance and regulatory frameworks. This article explores the nature of fraud in insolvent companies within the UK context and outlines vital lessons to avert future occurrences.

Understanding Fraud in Insolvent Companies

Fraud in insolvent companies can take many forms, ranging from financial statement manipulation to fraudulent and wrongful trading. Asset misappropriation can also lead to otherwise financially healthy companies entering insolvency.

These activities are often driven by the desire to conceal financial problems, mislead stakeholders, or unlawfully extract funds before a company collapses. Such fraudulent practices compound the financial distress of the company and erode trust among stakeholders.

Forms of Fraud

1. **Asset Misappropriation:** This involves the theft or misuse of a company's assets, which can include cash, inventory, or intellectual property. In insolvent companies, directors or executives may divert assets for personal gain or to benefit another entity they control. When companies begin to struggle, some directors seek to maximise personal gain before they lose control.
2. **Financial Statement Fraud:** Manipulating financial records to portray a healthier financial position than reality is a common tactic used to keep companies going. This can involve inflating – or pulling forward – revenues, understating liabilities, or altering asset valuations to deceive creditors and investors.
3. **Fraudulent Trading:** Continuing to trade while knowingly insolvent, with no reasonable prospect of avoiding liquidation, constitutes fraudulent, or wrongful, trading. This often leads to increased debts and can prejudice creditors.

British Home Stores (BHS)

The fall of BHS in April 2016 – leaving a substantial pension deficit – exposed issues of fraudulent trading and poor corporate governance. Sold for £1 to a buyer lacking retail experience, BHS's demise raised questions about fiduciary duties and due diligence in corporate transactions.

Lessons Learned:

- **Strengthening Corporate Governance:** The BHS case emphasised the importance of robust corporate governance frameworks to ensure directors act in the best interests of the company and its stakeholders.
- **Due Diligence in Corporate Transactions:** Thorough vetting of buyers and ensuring they have the requisite expertise and financial stability is crucial to preventing irresponsible ownership transitions.

Regulatory and Governance Reforms

In response to a growing number of insolvencies as a result of fraud, the UK has been focusing on tightening regulatory and governance frameworks to prevent fraud and protect stakeholders, such as the recent Failure to Prevent Fraud guidance, introduced by the Economic Crime and Corporate Transparency Act (ECCTA).^[1]

Regulatory Enhancements

1. **Failure to Prevent Fraud Guidance:** Introduced by the ECCTA, this is the most anticipated and discussed reform in relation to fraud for some time. Companies have a defence if they can demonstrate that they had such prevention procedures in place, as it was reasonable in all the circumstances to expect the body to have them in place. In a government press release, Serious Fraud Office (SFO) Director Nick Ephgrave stated, "The publication of this guidance means that time is running short for corporations to get their house in order or face criminal investigation,"^[2] so it appears the SFO is keen to start taking action. You can read more on this in our article [here](#).^[3]

2. **Improved Oversight by the Audit, Reporting, and Governance Authority (ARGA)**^[4]: ARGA will replace the Financial Reporting Council (FRC), and is tasked with strengthening audit and corporate governance in the UK with enhanced enforcement powers. It is stated that the “Government will tackle dominance of ‘Big Four’ audit firms and create a new regulator to reduce the risk of sudden big company collapses, safeguard jobs and reinforce the UK’s reputation as a world-leading destination for investment.” This reform has been in the making for over six years since Sir John Kingman’s review of the efficacy of the FRC and was re-introduced by the Labour administration in July 2024.^[5] The Minister for Corporate Responsibility, Lord Callanan, said “Collapses like Carillion have made it clear that audit needs to improve, and these reforms will ensure the UK sets a global standard. By restoring confidence in audit and corporate reporting, we will strengthen the foundations of UK plc, so it can drive growth and job creation across the country.”
3. **Insolvency Service Initiatives**^[6]: The Insolvency Service is enhancing its investigative and enforcement capabilities, focusing on identifying and prosecuting fraudulent activities swiftly and effectively.

Corporate Governance Reforms

1. **Independent Audit Committees**: Establishing independent audit committees within companies can reduce conflicts of interest and ensure unbiased oversight of financial reporting.
2. **Separation of Roles**: Separating the roles of CEO and chair can mitigate conflicts and promote better governance practices, ensuring checks and balances in executive decision-making.

Educating Directors and Management and Ethical Leadership Programs

One of the most effective deterrents to fraud is education. By equipping directors and management teams with knowledge and skills related to ethical leadership and financial literacy, companies can foster a culture of integrity. Training programs focusing on ethical leadership can reinforce the importance of fiduciary responsibilities and the long-term impacts of fraud on a company’s reputation and financial health. Encouraging a mindset that values transparency and accountability can drive ethical business practices.

Encouraging Whistleblower Protections

Whistleblowers play a crucial role in identifying and preventing fraud – this is prevalent now as it has been announced by the Treasury that they will reward whistleblowers for exposing tax avoidance or fraud.^[7] By creating an environment where employees feel safe to report suspicious activities without fear of retaliation, companies can leverage internal monitoring to detect fraud early. Enhancing legal protections for whistleblowers can encourage more employees to come forward with information about fraudulent activities. This includes ensuring anonymity and protection from dismissal or harassment.

Improving Auditing Practices and Rigorous Audit Standards

Auditors are central to detecting fraud, and improving auditing practices is vital to preventing fraudulent activities in insolvent companies, as noted in the ARGA reform. Implementing rigorous audit standards and continuous professional development for auditors can enhance their ability to detect discrepancies and identify fraudulent activities. Encouraging auditors to adopt a sceptical mindset and scrutinise financial statements thoroughly can improve the detection of fraud.

Conclusion

Fraud leading to insolvency poses significant threats to the integrity of the UK’s financial system and the trust stakeholders place in corporate entities. By learning from past failures and implementing comprehensive reforms, the UK can foster a more transparent and resilient business environment.

Regulators, companies, and stakeholders must collaborate to cultivate a culture of ethical business practices and robust corporate governance.

Hello clerk Dull, I asked that you respond to ALL when answering me.

Members of council have stated in police interviews to ask them for records. So, with that being recorded by Lt. Morris, I will ask ALL of Lorain's government elected and appointed to respond to my requests from now on. Passing the buck/blame doesnt fly anymore when it comes to records requests.

Your duties would be to forward my requests to the proper officials/offices of Lorain's government. ORC 149.43 explained in the Sunshine Laws training course which is required by Council rule 41.

Also, I and my Attorney Robert Gargas, have asked for the Lorain City Records Commissioners names and their terms of office per ORC 149.39.

Please forward to the proper city officials/offices for response.

And I would ask that ALL responses from Lorain's elected and appointed include every email in the request.

Thank you,
Garon Petty

Council Clerk Breanna Dull and Maggie Partin, please send me the Sunshine Laws Certificates of completion for all elected in Lorain who SHALL complete the training for the years 2020 until the present that are retained in your files.

If you do not have any individual certificates of completion retained, please explain why, per the Ohio Sunshine Laws and Council rule 41.

When responding, please reply to ALL since the Ohio Attorney General office and employees are included in this email.

Thank You,
Garon Petty

opening a report, you can search for a specific
this information helps and you are able to find the information you
