### How to Fix It

Try to modify your message, or change how you're sending the message, using the guidance in this article: [Bulk E-mailing Best Practices for Senders Using Forefront Online Protection for Exchange](#). Then resend your message.

If you continue to experience the problem, contact the recipient by some other means (by phone, for example) and ask them to ask their email admin to add your email address, or your domain name, to their allowed senders list.

### More Info for Email Admins

Status code: 550 5.7.350

When Office 365 tried to send the message to the recipient (outside Office 365), the recipient's email server (or email filtering service) suspected the sender's message is

spam.

If the sender can't fix the problem by modifying their message, contact the recipient's email admin and ask them to add your domain name, or the sender's email address, to their list of allowed senders.

Although the sender may be able to alter the message contents to fix this issue, it's likely that only the recipient's email admin can fix this problem. Unfortunately, Office 365 Support is unlikely to be able to help fix these kinds of externally reported errors.

### How to Fix It

Try to modify your message, or change how you're sending the message, using the guidance in this article: [Bulk E-mailing Best Practices for Senders Using Forefront Online Protection for Exchange](#). Then resend your message.

If you continue to experience the problem, contact the recipient by some other means (by phone, for example) and ask them to ask their email admin to add your email address, or your domain name, to their allowed senders list.

### How to Fix It

Try to modify your message, or change how you're sending the message, using the guidance in this article: [Bulk E-mailing Best Practices for Senders Using Forefront Online Protection for Exchange](#). Then resend your message.

If you continue to experience the problem, contact the recipient by some other means (by phone, for example) and ask them to ask their email admin to add your email address, or your domain name, to their allowed senders list.

### How to Fix It

Try to modify your message, or change how you're sending the message, using the guidance in this article: [Best Practices for Senders Using Forefront Online Protection for Exchange](#). Then resend your message.

If you continue to experience the problem, contact the recipient by some other means (by phone, for example) to ask their email admin to add your email address, or your domain name, to their allowed sender list.

### More Info for Email Admins

*Status code: 550 5.7.350*

When Office 365 tried to send the message to the recipient (outside Office 365), the recipient's email server (or email filter) determined that the sender's message is spam.

If the sender can't fix the problem by modifying their message, contact the recipient's email admin and ask them to add your domain to their allowed sender list.
