The investigation is required to incorporate the examinations required by law (OAC § 3701-5-14).

326.3.3 SEARCHING DEAD BODIES

The Coroner or the Coroner's assistants and authorized investigators are generally the only persons permitted to move, handle or search a body known to be dead.

An officer is permitted to make a reasonable search of an individual who it is reasonable to believe is dead, or near death, for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal (ORC § 2108.12(A)(1)). If a donor document is located, the Coroner shall be promptly notified.

Death Investigation

Should exigent circumstances indicate to an officer that any other search of a known dead body is warranted prior to the arrival of the Coroner, the investigating officer should first obtain verbal consent from the Coroner.

Whenever reasonably possible, a witness, preferably a relative of the deceased or a member of the household, should be requested to remain nearby the scene and available to the officer, pending the arrival of the Coroner.

The name and address of this person shall be included in the narrative of the death report.

326.3.4 DEATH NOTIFICATION

Officers investigating a traffic collision and who discover any person who is deceased or is pronounced dead at the scene, or who suffers a serious, life-threatening injury in a motor vehicle accident, is responsible for identifying the person and notifying the person's next of kin (ORC § 4501.80).

Identification of victims and notification should be done without delay although proper and accurate identification of victims is necessary prior to making any notification to the next of kin. Identification resources include the next of kin registration database maintained for law enforcement by the Bureau of Motor Vehicles and the Coroner.

Notification to the next of kin of a deceased person shall be made, in person, by the officer assigned to the incident in compliance with Department training on death notifications. If the next of kin lives in another jurisdiction, a law enforcement official from that jurisdiction may be requested to make the personal notification.

In non-traffic deaths, when notification is not performed by the Coroner, and if a deceased person has been identified as a missing person, this department should attempt to locate family members and inform them of the death and location of the deceased missing person's remains as described above.

In all notifications, the notification shall be documented and the Coroner shall be informed whether the notification has been made.

Should a human death result from a fire, this department may notify the state or City fire marshal as allowed by law.

326.3.5 UNIDENTIFIED BODIES DATA ENTRY

As soon as reasonably possible, but no later than 30 working days after the date a death is reported to the Department, all available identifying features of the unidentified body including dental records, fingerprints, any unusual physical characteristics and a description of clothing or personal belongings found on or with the body shall be forwarded to the Coroner for entry into the Ohio Bureau of Criminal Identification and Investigation database, the Missing Children and Missing Persons Information Clearinghouse and the National Crime Information Center (NCIC) file (ORC § 313.08).

If the on-scene supervisor, through consultation with the Watch Commander or Criminal Investigations supervisor, is unable to determine the manner of death, the investigation shall proceed as though it is a homicide.
